Gnodi Mainnet Deployed —

Blocks Confirmed & Rewards are Coming!

OREM, Utah, Sept. 15, 2025 /PRNewswire/

-- Block Reign announced today that the Gnodi Mainnet was deployed, with blocks now being confirmed by a decentralized network of Proof-of-Stake (PoS) validators. This milestone moves the Gnodi blockchain from setup to on-chain operations and opens the door for broad participation in a secure, user-centric ecosystem.

Built for the people, not platforms, Gnodi supports a privacy-first network where individuals can own their digital identity while contributing to a thriving, community-driven economy. With licensed Gnodi software Nodes and products such as decentralized document storage, the ecosystem is engineered for real-world utility, resilience, and sustainable growth. Block Reign delivers technology products and solutions seamlessly integrated with the Gnodi Blockchain.
